## Overview

This is a unique opportunity to learn about European post-conflict societies— a troubled history, current developments, culture and people— by submerging yourself in a foreign, friendly environment. You will meet people from all strata of life and absorb new knowledge by socializing with your peers, making friends and experiencing one of the most vibrant and hospitable European capitals. You will learn and develop skills through interaction with Serbian, Montenegrin and Croatian students, faculty and high-ranking officials. You will broaden your horizons, better understand developments in Europe and form your own opinion about major issues. But the life experiences will be just as rewarding. You will enjoy the countryside, the magnificent Adriatic Sea beaches, the unparalleled beauty of the Mediterranean coast and three of the best-preserved medieval cities in the world.

## Course Delivery

POSC 4590 Ethnic Violence

POSC 4890 The Balkans and the International Community

POSC 4100 Directed Study in International Politics

\*In this academic program, students can earn up to nine credit hours in one month while enjoying an immersive study abroad experience. The program is also offered to graduate students (POSC 8780 Selected Topics).
