

**Hiring Department and International Employee Checklist and H-1B Request Form**  
(updated 05.01.2024)

The H-1B non-immigrant visa is reserved for international employees who will work in a specialty occupation for a total of six years, applied for in 1-2-3-year increments. A specialty occupation is one that requires the application of a body of highly specialized knowledge and the attainment of at least a bachelor's degree or its equivalent. Additional information on the H-1B visa status, including the processing timeline for filing an H-1B petition, can be found [here](#).

H-1B petitions are detailed and time-consuming, with the average petition being 75-100 pages long. To best assist International Services, we ask the hiring department and the new/continuing employee to follow the guidance below.

**Application Instructions:**

- H-1B applications can be filed up to six months before the start date of employment or the end date of current employment. Information on H-1B status and the application timeline can be found [here](#).
- The H1B Application Packet consists of the Hiring Department and Employee H-1B Request Form, the Actual Wage Determination Form, the Export Control Questionnaire, all supporting documents, and Clemson University-issued checks for USCIS filing fees.
- International Services will not review incomplete H-1B packets and will return incomplete packets to the hiring department. All packets should include the required signatures.
- Hiring departments are responsible for submitting completed H-1B Application Packets, including checks and employee documents, to International Services. The packet must be submitted to [empvisa@clermson.edu](mailto:empvisa@clermson.edu) in an Adobe PDF Portfolio with each item individually named for easy reference.
- Multiple emails with numerous attachments will be returned to hiring departments as it causes delays in the review and processing of H-1B packets. We do not accept H-1B packets submitted via Box or OneDrive or double-sided or stapled photocopies.
- All questions concerning the H-1B application and supporting documents should be directed to [International Services](#).

**Type of H-1B Request:**

- Initial/New H-1B Employment at Clemson University.
- Extension of Current H-1B Employment at Clemson University.
- Amendment to current H-1B Petition.
- Amendment and Extension to current H-1B Petition.
- Transfer/Change of Employer (Non-Clemson employee on H-1B being hired by Clemson on H-1B.)
- New Concurrent Employment (Employee currently holds H-1B with another employer but will work concurrently for Clemson).
- Other: \_\_\_\_\_.
- Optional: The department requests this petition be filed using Premium Processing, an additional fee paid to USCIS to expedite a response by USCIS to an H-1B petition.

RE: Department Support Letter for (insert name of employee/candidate) Dear Sir or Madam:

This letter is being submitted in support of the University's H-1B petition for (employee/candidate) to serve as a Research Associate in the Department of Science at the University.

Established in 1898, the University is a nonprofit academic and research institution and is recognized as one of the foremost academic institutions in sciences. To maintain this level of excellence, our staff members must be of the highest merit and ability.

The University's Department of Science wishes to temporarily employ (employee/candidate) in the specialty occupation of Research Associate for (up to 3-years based on funding for the position). The minimum requirement for this professional position is the completion of a Ph.D. in Physics. As a Research Associate, he will be involved in atmospheric and climate research, where the major interest is in studying the potential influence of atmospheric water vapor on the freshwater balance of the oceans and its implications on deep water formation and ocean circulation.

(Employee/candidate) is eminently qualified to fill the position of Research Associate. (He/she) studied Chemistry and Physics at the University of Munich in Germany and received a teaching degree in Chemistry and Physics in 1990 and the equivalent of a U.S. master's degree in Physics in 1991. (He/she) did (their) thesis work for both degrees at the Institute for Environmental Physics at the University of Munich. (He/she) earned (their) Ph.D. in Physics from the same University in May 2000.

Based upon (employee/candidate's) professional credentials, we wish to employ (him/her) as a Research Associate for an initial period of (up to 3 years based on funding for the position), for which (he/she) will receive an annual salary of \$40,000. Assuming our petition is approved, we fully intend to comply with all the regulations regarding the employment of individuals in H-1B status. We confirm that if (employee/candidate) is dismissed before the end of (his/her) period of authorized employment, we will be responsible for the reasonable cost of return transportation abroad. Thank you for your consideration and attention to this matter.

Sincerely,  
/s/ Chair, Department of Science  
/s/ Dean, College of Arts and Sciences

## Actual Wage Determination and Notification of Change in Terms and Conditions of Employment Agreement

Clemson University departments hiring temporary workers in either the H-1B or E-3 visa categories must complete an Actual Wage Determination to comply with the U.S. Department of Labor (DOL) regulations. Specifically, the DOL requires that the employer attest that the H-1B or E-3 employee be paid the higher of either (1) the prevailing wage for the occupation in the area of intended employment or (2) the actual wage for the occupation at the place of employment.

The actual wage is defined as the wage paid by the department to all other individuals “with similar experience and qualifications for the specific employment in question.” When calculating the actual wage, the department should consider the following factors: education, work experience, specific job duties and functions, specialized knowledge, and any other related factors. The salaries of other similarly qualified employees will establish the range of actual salaries. Please note that the H-1B or E-3 employee’s salary must fall within or above that range.

**Visa Applicant Deemed Export Questionnaire  
For Sponsored & Non-Sponsored Activities**

**This questionnaire must be completed by the sponsoring faculty member or supervisor who is directly knowledgeable of the visa applicant/beneficiary’s activities. It must not be completed by someone with no direct knowledge of the visa applicant/beneficiary’s activities.**

**Important Background – Please Read:** The U.S. Citizenship and Immigration Service (USCIS) requires that Clemson University, when filing a **H-1B, L-1, or O-1** petition, certify the following:

- It has reviewed the Export Administration Regulations (EAR) administered by the U.S. Department of Commerce and the International Traffic in Arms Regulations (ITAR) administered by the U.S. Department of State; and
- It has determined whether or not a license (prior authorization) is required from either of these U.S. government agencies to allow a foreign national employee access to export-controlled items or technology (laboratory equipment/research instruments, materials, software or technology/technical data) controlled under the EAR or ITAR.

In the case of **J-1 Exchange Student and Visiting Scholars**, Clemson University is also required to determine whether the J-1 visa candidate will be exposed to export control items or technology.

The transfer or release to a foreign national of such controlled items by any means is “deemed” to be an export to the foreign national’s country of citizenship or permanent residence, potentially requiring a U.S. export license, unless a particular authorized license exemption applies.

**Please complete the form as comprehensibly as possible.**

If you need assistance in completing this questionnaire, please contact [Export Control](#) in the Office of the Vice President for Research. Export Control will then assist you in completing the questionnaire and work with you to determine whether the activities intended for the visa applicant require prior export control authorization from a governing U.S. agency or a Technology Control Plan to restrict access.

**Please answer Question 1, check the appropriate box, and give a brief explanation of the work assignments(s) below.**

1. Will the beneficiary be working in one of the following

areas?  Biomedical Sciences

Computer Sciences

Space or Space Launch Sciences

Any Engineering or Scientific Discipline (may include but are not limited to the following: Chemical, Electrical, Semiconductor, Materials Science, Physics, Mechanical, Geophysical, Geospatial, Marine, Meteorological, Astronomy, Nuclear, Artificial Intelligence or Robotics).

**Check one:**

**NO:** the assignment will not involve, expose, or potentially expose the applicant to any scientific or engineering discipline identified above, or if involved in such scientific discipline, will be acting in a teaching-only capacity, with no research involvement.

**YES:** the assignment will involve, expose, or potentially expose the applicant to a scientific or engineering discipline (including but not limited to one or more of those listed above).

**Brief explanation of work assignment(s).**

You are required to check all applicable boxes below. Responses of “yes” or “not sure” answers could be potential deemed export concerns to which [Export Control](#) will promptly work with you to review and resolve. **Important note:** any technical data that has been invented by Clemson University or another entity as the result of fundamental research (basic and applied research conducted without sponsor mandated publication and/or citizenship restriction) and is the subject of a potential or actual research publication, conference presentation, course curriculum, or patent publication (i.e. already in the public domain) is exempt from deemed export access restrictions.

2. Will the beneficiary perform any activity under a sponsored research agreement (e.g. grant, CRADA, contract, recharge service agreement, Capstone, etc.) that restricts or prohibits the participation of foreign nationals (i.e. there are restrictive clauses or requirements pertaining to foreign nationals or non-U.S. persons participating in the research)?

YES       NO       NOT SURE

3. Will the beneficiary perform any activity under a sponsored research agreement (e.g. grant, CRADA, contract, recharge service agreement, Capstone, etc.) that restricts or prohibits the research team’s right to publish any of the data or research results, except for the sponsor’s right to review and exclude from intended publication proprietary or confidential data that, under the terms of the Agreement, is exempt from publication.

YES       NO       NOT SURE

4. Will the beneficiary be provided access to any of the following (whether or not actually required for his/her work assignment and whether through hard or soft copy)?

- Technical data or information that has been stamped or otherwise designated by the sponsor or collaborating institution as being “export controlled;”

YES       NO       NOT SURE

- Sponsor or third-party proprietary or confidential information, materials, or software that is the subject of a Non-Disclosure Agreement (NDA) or equivalent confidentiality agreement.

YES       NO       NOT SURE

- Third party, proprietary technology for the development of cryptography, or source code containing cryptographic functionality.

YES       NO       NOT SURE

- Third party, proprietary information pertaining to the “use” or “development” or “production” of instruments, materials, software, or scientific processes (technology):

*For purposes of this Question:*

- **“Use”** means that the foreign national would be performing one or more of the following types of activities pertaining to a controlled item beyond merely operating the item for its intended purpose: installation, maintenance, repair, and overhaul/refurbishing – based on a proprietary and controlled (non-public domain) manufacturer manual or other equivalent documentation.
- **“Development”** means technology pertaining to a sponsor’s proprietary R & D and development project - - i.e. not intended for publication: design research, design analysis, design concepts, assembly and testing of prototypes, pilot production schemes, design data, process of transforming design data into a product, or configuration design

- “**Production**” means technology pertaining to sponsor-proprietary product engineering, manufacture, integration, assembly (mounting), inspection, testing, quality assurance.

YES       NO       NOT SURE

5. In performing their position, will the beneficiary be provided access to research equipment, instruments, materials, software, and/or technical data in any form (e.g. blue print, sketches, specifications, documented technology, vendor operational manual/instructions, data results) that is governed under the ITAR.

ITAR covers any item (equipment, instruments, materials, software, and/or technical data as exemplified above) specially designed, developed or modified for military, defense or space applications) and may include such items whether procured from a vendor, or otherwise received by a research sponsor or collaborating research institution. Click [here](#) for a list of high level ITAR categories that identify such defense, military and space items.

*For purposes of this question:*

- “**access**” means any visual or physical access to the item, regardless of whether such access is actually required by the visa applicant to perform his/her work assignment.

YES       NO       NOT SURE

Please send completed forms and all additional documents to [International Services](#) located in 108 Long Hall.

If this form is being completed for a J-1 scholar, the J-1 scholar must complete *the J-1 Due Diligence Form* and return the completed form to the faculty sponsor and [Export Control](#).

### SIGN & DATE COMPLETED FORM

#### Acknowledgment:

In the event that the information above changes with respect to the beneficiary’s activities, please notify [Export Control](#) in the Office of the Vice President for Research in a timely manner.
