

M.Ed. in Learning Sciences

College of
EDUCATION

Clemson University's College of Education has produced award-winning teachers and leaders since its first teacher education classes offered in 1916. Now, our exceptional quality can be shared nationally through our online Master of Education in Learning Sciences. Embedded within a top 30 public university and designed for working professionals like you, the Clemson M.Ed. offers flexibility, specialized skills and practical knowledge to help you take the next step in your career.

What is the M.Ed. in Learning Sciences?

The Clemson Master of Education in Learning Sciences is an online graduate program for learners interested in developing expertise in designing effective learning environments, assessing human learning, and integrating interdisciplinary knowledge to apply theoretical and practical skills to their area of specialization.

How do M.Ed. students learn?

Students engage in a rigorous curriculum and state-of-the-art online learning. They complete 30 hours of coursework including a selection of two concentration areas: Instructional Design or Effective Online Teaching. The program is designed to be completed in 2 years and includes coursework to apply for an Online Teaching Certificate.

What do M.Ed. graduates gain?

Students will gain in-depth knowledge related to research concepts and skills, learning theory, human learning and assessment, instructional design of digital learning environments, and effective online teaching and learning. Graduates of our program will utilize their knowledge to design effective learning environments, assess human learning, and integrate interdisciplinary concepts to apply theoretical and practical skills to their area of specialization.

Benefits of earning an M.Ed. in Learning Sciences from Clemson

- > Increase expertise in your field of specialization
- > Join a community of learners that strive to continuously improve their knowledge in interdisciplinary instruction
- > Expand your career options and potential to increase your pay

Learning Sciences Concentration Areas

- > Instructional Design
- > Effective Online Teaching

Why interdisciplinary M.Ed. in Learning Sciences?

- > Skills acquired can be applied to a variety of disciplines (academia, industry, corporations, military, non-profit organizations)
- > Select the concentration area (Instructional Design or Effective Online Teaching) that best fits your career goals
- > Asynchronous online learning allows for flexibility, individualized learning, and experience using a variety of technology tools

Option to Apply for Effective Online Teaching Certification

Students who choose the Effective Online Teaching Concentration area have the opportunity for the Effective Online Teaching Certification.

Application Deadline

April 15: Application Deadline
