Request Date: **October 2024**

Payout Date: **November 2026**

Use the worksheet addendum attached below (Worksheet A) to determine the total amount of salary you plan to release from grants or contracts. Only grants active prior to October 1, 2024 will be eligible. Enter the total amount of salary released in the box with the highlighted frame next to the TOTAL (the distribution will auto-calculate):

Component:	Amount Released <sup>1</sup>	Less Fringe <sup>2</sup>	Less Payroll Taxes <sup>3</sup>	Direct Amount Received:
One-Time Compensation Allocation:				
Department Allocation:				
<b>TOTAL:</b>				

- (1) Amount released includes direct salary and fringe originally budgeted on grant/award.  
(2) Clemson's annual fringe rate of 38.2% for FY25 for payout projection purposes. The official payment will be calculated based on the payout year's fringe rate which may vary slightly from the initial, approved payment.  
(3) Payroll taxes after fringe rate has been deducted are estimated at 36.05% for tax year 2024, which includes 22% federal withholding, 6.4% SC withholding, 6.2% FICA OASDI, and 1.45% FICA Medicare per the linked IRS publication: [https://www.irs.gov/publications/p15#en\\_US\\_2024\\_publink1000202352](https://www.irs.gov/publications/p15#en_US_2024_publink1000202352).

By signing below, I request to participate in the Faculty Research Incentive Plan. I understand the one-time payment is based on salary savings that I generate through competitive sponsored funding as outlined in the Faculty Research Incentive Plan. I am responsible for accurately certifying my effort through InfoEd. I understand that payment will be remitted after the plan year is closed, effort is certified, and approved after the year end close, November of the following fiscal year. I also understand that course buyout is not related to this plan and will not be considered in my potential payout.
