

Research Advisor Interview Form

It is expected that each student will meet with at least three regular faculty members in the Department of Chemistry to discuss their group's research program. Interviews are required, even for students who know which research group they wish to join. Students are encouraged to meet with more than three faculty members and learn about their research.

<u>Faculty Member</u>	<u>Date</u>	<u>Initials</u>	<u>Faculty member</u>	<u>Date</u>	<u>Initials</u>
